

MAD MONKEY
COLUMBIA, SC

OPEN POSITION: WEB DEVELOPER

The Web Developer must be able to display, either through live websites or archived code, superior skills with Flash, PHP, MySQL, XML, AJAX, JavaScript and CSS. This person must be able to work independently based on project management calendars and direction provided in weekly meetings. Understanding of and appreciation for excellent design is a must – we are looking for people with coding and programming skills who appreciate a higher aesthetic. Understanding of the need to develop websites that function across major browsers – and the relevant “bugginess” of the major browsers – is also necessary. Experience creating client-facing functionality documents and custom content management systems (CMS) is a plus.

The Mad Monkey Interactive team is made up of staff members responsible for business development, marketing, project management, strategy, programming and design. We are looking for a Web Developer to contribute to this core group of individuals.

A minimum of 3-5 years of web development experience is necessary. Candidates will be evaluated based on their ability to play well with others, their portfolio (active websites is ideal) and their ability to demonstrate knowledge of web usability best practices, major interactive trends and web applications.

Interested applicants should send cover letter and resume to info@gomadmonkey.com
